## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/23/2007 has been entered.
2. Claims 1-21,23,25, and 28 are canceled without prejudice or disclaimer.
3. Claims 22,24,26-27, and 29-32 are pending and examined on the merits.

## **NEW REJECTION**

### ***Claim Rejections - 35 USC § 112, 1<sup>st</sup> paragraph***

4. Claims 22,24,26-27, and 29-32 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. THIS IS A NEW MATTER REJECTION.

Applicant has amended the claims to recite that the humanized antibody of the instant invention is to have ADCC activity equal to or greater than the humanized antibody generated by the cell line YB2/3HL.P2.G11.15Ag.20. Applicant directs the

Art Unit: 1643

examiner to page 39 of the specification for support for this limitation. However, the specification does not support an antibody that is produced by the aforementioned cell line having an activity of a specific ADCC potential. Moreover, the specification does not support the limitation that the ADCC activity of the Flt-1 antibody as having any specific activity compared to other antibodies produced by other cell lines. Applicant is invited to point to clear support or specific examples of the claimed invention in the specification as-filed.

**All other rejections are withdrawn in view of the applicant's amendments and arguments thereto as set forth in a paper filed 2/23/2007.**
